This is available on Amazon and through other sellers. I suggest you purchase early to avoid any out of stocks. (There seems to be a limited quantity available on Amazon.)

- Answer the questions in the back of the book in complete sentences as you finish each chapter. Be sure to give thought to each question and give detailed answers with elaboration. Make sure to use correct grammar and sentence structures you have previously learned.
  - After reading each answer, please also state what other information you are curious about that might help you solve this mystery.
  - List at least 3 new vocabulary word you have learned in each chapter.
- There will be a quiz and other activities with the book upon our return to school in September.
